WELCOMING MESSAGE

Dear colleagues, we are honored to welcome you the 6th SCF & SOC-HF.

SCF & SOC-HF has been successfully conducted for the last 5 years and received abundant positive feedbacks and good enthusiasm. This year, with the main theme of **"Tailoring Strategies Toward Challenges in Cardiovascular: From Whiners to Winners"**, we hope this event could inspire and push your knowledge and skills to bring better cardiovascular management throughout Indonesia.

Particularly for the SOC-HF, it is the second largest HF congress in Indonesia, aside from I-HEFCARD. This year, we not only will extract you the key point of ESC HFA and HFSA congress, but also updates you through ongoing trials of HF in the world. This event will also be enriched with international renowned speakers and InaHF.

There are other interesting cardiovascular symposiums and in-depth course topics for medical students, general practitioners, and cardiologists in SCF. Scientific competitions will also be held in the form of Interactive Real Case presentations.

Yesterday we are **No Where**, but straightaway we are **Now Here**. Register immediately to the 6th SCF & SOC-HF, and experience the event yourself.

Best Regards,

dr. Irnizarifka, SpJP, SupSp. Ar. (K), FIHA, FAPSC, FAsCC, FHFA
Chairman of 6th SCF & SOC-HF
